ASSIGNMENT

WHEREAS, I: David C. Verakis of Florence, Kentucky, have invented certain new and useful improvements in a SELF-LIMITING ELECTRIC WINCH ASSEMBLY, for which an application for Letters Patent of the United States has been made, said application may be identified in the United States Patent Office by Appl. No. 60/429,580, filed 27 November 2002.

Whereas, Campbell Hausfeld/Scott Fetzer Company, a corporation organized and existing under the laws of the State of Delaware, and having its principal offices at 100 Production Drive, Harrison, Ohio 45030 (the "Assignee"), is desirous of acquiring the entire right, title and interest in and to said invention, said application and in, to and under any and all Letters Patent to be obtained therefor;

Now, therefore, for good and valuable consideration, the receipt of which is hereby acknowledged from the Assignee, I have sold, assigned and transferred, and by these presents do hereby sell, assign and transfer unto the said Assignee, its successors and assigns, my entire right, title and interest in and to said invention, said application, all divisions, continuations, continuations-in-part, reissues, or renewals thereof, and the Letters Patent, both foreign and domestic, that may or shall issue therefrom, including all reissues or extensions of such patents including all of my rights under the International Convention (collectively "the Patent Rights"), and I do hereby authorize and request the Commissioner of Patents to issue said Letters Patent to the above-mentioned Assignee in accordance herewith.

I hereby authorize the above-mentioned assignee, its successors and assigns, or anyone it may properly designate, to insert in this instrument the application number of said application when ascertained.

I further authorize said Assignee, its successors and assigns, or anyone it may properly designate, to apply for Letters Patent, in its own name if desired, in any and all foreign countries, and additionally to claim the filing date of said United States application and/or otherwise take advantage of the provisions of the International Convention.

I represent and warrant that I have the right and authority to execute this Assignment and to convey all my right, title, and interest in the Patent Rights, and that I have not conveyed nor will convey hereafter all or part of the Patent Rights therein to a third party; and I do hereby covenant and agree with the said Assignee, its successors and assigns, that I will not execute in writing or do any act whatsoever conflicting with these presents, and that I or my executors or administrators will at any time upon request, without further or additional consideration, but at the expense of the said Assignee, its successors and assigns, execute such additional writings and do such additional acts as said Assignee, its successors and assigns, may deem necessary or desirable to perfect the Assignee's enjoyment of this grant, and render all necessary assistance in making application for and obtaining original, continuation, continuation-in-part, divisional, reissued or extended Letters Patent of the United States, or of any and all foreign countries on said invention, and in enforcing any rights occurring as a result of such applications or patents, by giving testimony in any proceedings or transactions involving such applications or patents.

In Witness Whereof, I have hereunto set my hand and affixed my seal on the date indicated below.
